

The School And Family Enrichment Project (SAFE)

DID YOU KNOW...

...that children's emotional health can affect their ability to succeed in school, connect with friends and family, and bounce back when faced with life's setbacks?

We will:

- ❖ **Identify your child's strengths as well as any social, emotional, or behavioral needs with a free and confidential screening;**
- ❖ **Provide recommendations and linkage with the best possible and most affordable services available;**
- ❖ **Refer your child to services that are easily accessible with no wait-list;**
- ❖ **Help keep your child on track in your home, in their school, and in the community.**

Every child in grades K - 8 will be receiving and bringing home an informational packet from school. For additional or replacement packets or for information on how to participate, please call Joyce Kelly at (607) 778-1109. You can also send an email to jkelly@co.broome.ny.us
